INCOGNITO Technical rider

Duration :

50 minutes

Team composition :

3 persons : 2 actors, 1 technical manager

Mounting: 1hour and 30 minutes / can be much less if needed.

Dismantling : 30 minutes

Stage size :

Width : 7m

Depth : 6m

Height: 3m minimum

Performance place :

For the needs of proximity with the public, the show must be played on the ground.

The ground should be **flat and hard** (no lawn).

A scene with a maximum height of 40 cm may be suitable, with the **possibility of going up and down from the front stage.**

For technical reasons (use of the Bluetooth signal) as well as for the quality of listening, it is better to have a partly closed play area (wall, hedge, building, etc ..behind), and a calm frame., protected from the wind.

Scenography

Decor (Width :1m / Depth : 0.80m / Height = 1.20m)

Accessories: 4 small wooden planks, tin cans, 3 short steaks, a long winder, a ukulele, a radio, a broom.

Lights :

In case of night show outdoor, provide standard full lighting.

The company can also come with its material if needed.

Audio system

Sound broadcast is through a Bluetooth speaker inserted into a radio.

(Enclosure provided by the company).
